Subject: Vaccine Mandate

CAUTION: External Message

I wish to add my name to the list of people who oppose this mandate. I am a double vaxxed grandparent of 3 SD 68 students.

This kind of coercion has never been acceptable in Canada up to now. People have rights and they matter, even if not to politicians and government officials. Many of the wrongs committed in the past came with the full support of the majority. Respect for individual rights is what protects the minority.

The evidence is now overwhelming that the “vaccines” protect no one from anything. Some of the most highly vaccinated countries in the world (Denmark, Israel, Australia for example) now have Covid 19 rates much higher than countries with less vaccine coverage. It is time to tell senior levels of government that a reassessment of the vaccine programs must take place.

Young people are being taught to live in fear and at all costs seek “safety”. Those of us who have lived awhile know that there is no such thing as being “safe”. Further, they are being taught that the only path to “safety” is by total obedience to the commands of politicians and government officials. Is this really healthy for our young people? They should be challenged to question things like this, look at the facts and evidence, to arrive at a reasoned conclusion.

Please reconsider forcing the vaccine mandate on SD 68 employees.
