Hello,

The feedback I have for all 4 calendars presented is regarding 2-week Spring Break.
The length of the spring break is much too long. It really kills the momentum of learning, it's hard for students to get back into their studies after such a long break.

It is also difficult & expensive enough for parents to find care & activities for a one-week break. 2-weeks is even more difficult & expensive.

Thank you,
- Mandy Brown

I would like to suggest that spring break gets pushed back a few more weeks so we get a better chance of nice weather

Hi there,
I'm wondering why National Day for Truth and Reconciliation on Sep. 30th is not on the calendar as a stat for all 3 years.
Also, is there a reason for the 2 additional days of instruction in the 2028-2029 calendar? Is this simply because Labor Day is earlier in 2028? Do staff and teachers get paid more? I don't believe additional instructional time is necessary. Is that a new trend that will carry on into the future? If staff are working 2 additional days then I would assume they should be compensated for that.

Thank you for your consideration.

All the best,
Teresa Mayer

CAUTION: External Message

Hey Schools,

Having a big break in March is dumb. It's literally the worst time of year in Nanaimo and just results in kids being kept inside bc it's rainy and cold but not winter-so-suck-it-up cold. There should be 2 short breaks one in Feb one in April.

Also the school year and day is too short; what are working parents supposed to do.

Thanks for listening to my TedTalk

Thank you,
Matthew Schwarz
