**Subject:** Flagged as Probable SPAM Not in favor of mandate for students or employees

**CAUTION:** External Message

To whom it may concern,

Students are at nearly zero % risk of contracting or transmitting this respiratory illness and are instead buffers which help others build their immune system. The overall survival rate is 99.997%.

This sort of mandate violates the charter of rights and is unlawful.

School officials, staff and volunteers, are not medical professionals and, therefore, if this sort of mandate is decided upon, they are unlawfully practising medicine by prescribing, recommending, and using coercion to insist that school children take this experimental medical treatment.

Please protect our children. Do not mandate an experimental shot and further recommend the use of masks.

Concerned parent,  
Nicole & John Benedict
