Re: Vaccine Mandate

To Charlene McKay, Greg Keller, Jessica Stanley, Chantel O'Neill, Elaine Wilkinson, Stephanie Higginson, Tanya Brzovic and Bill Robinson:

I respectfully request that you do not allow the government to manipulate you into putting into effect a vaccine mandate. The BC government and Dr. Bonnie Henry are downloading their responsibility onto you and putting you, as a private Canadian citizen, in the position of being culpable for any negative health effects of this covid vaccine. Please follow the lead of Victoria and Surrey school districts in at least tabling this mandate until you have had time to research fully the ramifications of this issue.

It is unlawful for anyone who is not a doctor or qualified health professional to make recommendations or mandates for employees, particularly with regards to the above vaccine, which has not yet been approved by the FDA, and cannot be until the trials are completed in 2023.

I have attached a document from a group of Canadian RCMP officers containing VERY CLEAR evidence of how mandating vaccines is breaking numerous Canadian laws, which you will be held accountable for should you proceed with a vaccine mandate for employees in SD#68. Please don't make the mistake of taking on the B.C. government PHO's responsibility in this matter. The Canadian Bill of Rights, the Charter of Rights and Freedoms, Human Rights laws internationally as well as nationally, and numerous other laws with regards to our

democratic rights and freedoms will be broken by you, if you choose to implement medical mandates of any sort.

I urge you to look at part or all of the attached 108 page document from the RCMP, who are the ones charged with upholding Canada's laws. Who would know better if Canadian laws were being broken?

Sincerely,

Sue Miron
