Subject: Vaccine Mandates

CAUTION: External Message

I am a concerned parent and teacher.
Please do not mandate mandatory vaccines for teachers, staff and/or students.

To my knowledge, none of the School Board Trustees are health professionals or research scientists in the field of epidemiology, immunology, or infectious disease; nor are they privy to the specific medical history of school staff and students. I find it highly inappropriate that school board trustees are being put in a position to even be considering dispensing medical advice, such as vaccine mandates.

My medical history and my personal health choices are not the business of my employer. I have the right as a parent to choose what medical procedures are best for my children and that is not the function or role of the School Board.

I feel very strongly about this issue. I do not wish our School Board to allow this kind of dangerous precedent to be set. I am sorry that you have been put in this position.

Many thanks for taking the time to read this email,

--
